

Rob Gazzard, Forestry Commission, England

Challenges of wildfire evacuation in the United Kingdom

BIO:

Rob Gazzard is a chartered forester and surveyor with 25 years' experience in the forestry sector and 7 years in the UK Fire and Rescue Services. He has over 18 years' experience in vegetation fires including operational response to large wildfire incidents in the UK, United States (California and Oregon) and prescribed burning in Oregon, Spain and Portugal. He is an advisor on contingency planning and wildfire in UK Government. He chairs one of the UK's Wildfire Groups, co-founder of the England and Wales Wildfire Forum and coordinates the UK Wildfire Research Group. He is a Technical and Operational Expert in the European Civil Protection Mechanism and partner for various European Commission funded projects. He is an active partner on various UK and European research projects, with research papers published on a wide range of wildfire related topics.
